

ETTU STRATEGIC PLAN

2023-2028

TABLE TENNIS FIRST

INTRODUCTION

The European Table Tennis Union Executive Board considers that having a Strategic Plan has become an essential tool in what concerns the future of our Continental Federation.

With all the challenges Europe is facing now, a clear pathway must be defined so all European Table Tennis family has a clear idea of what will be the main objectives of ETTU until the end of the next Olympic cycle in 2028.

ETTU Strategic Plan will also help our professional staff to understand our objectives and coordinate their delivery efforts.

To protect our club system, to grow our team competitions, to develop our youngsters, to market and promote our sport are ETTU priorities!

Being the result of many internal discussions and respective conclusions, this document intends to define a Continental goal and motivate all our stakeholders to work together in one direction, having Europe at the top of our beloved sports pyramid with regard to sports results and competition participation.

Of course, this is an evolving plan that will be updated every time the Executive Board feels it is necessary. A Strategic Implementation Plan will follow, defining key performance indicators (KPIs), timetables and setting the tone for the next years of ETTU activity.

The European Table Tennis Union has recently reached its 65th anniversary. While we are projecting the future, our history, traditions and values must and will be respected, bringing us to a common vision, the passion for our beloved sport ... Table Tennis First!
